

EUDR self-check for wood and furniture importers

This check helps you identify gaps in your preparation. It is for EU businesses placing in-scope wood products or furniture from non-EU countries on the EU market for the first time. Answer Yes only when the point is clear and supported by evidence. If you are unsure, choose No.

Eight questions

A No to any marked question triggers the Readiness Check recommendation, regardless of the total.

1. Have you confirmed your EUDR role, the products in scope and the application date that applies to you? ☐ Yes ☐ No

2. Do you have an up-to-date, complete supplier list for those products? [!]
☐ Yes ☐ No

3. Do you have the required geolocation data for every plot supplying the wood in those products? [!]
☐ Yes ☐ No

4. Is it clear who prepares, reviews and submits the due diligence statement (DDS) before the products are placed on the market? [!]
☐ Yes ☐ No

5. Can you link the supporting evidence to the actual products, batches or shipments you import? [!]
☐ Yes ☐ No

6. Is there a named person in your company who coordinates EUDR requests and unresolved issues?
☐ Yes ☐ No

7. Does the responsible person have working access to the EU Information System to submit your due diligence statements?
☐ Yes ☐ No

8. Could you provide the complete EUDR evidence for a shipment within 48 hours? [!]
This includes origin and legality evidence, evidence addressing the EUDR requirements on deforestation and forest degradation, and risk assessment where required. The 48 hours are LamNova's practical readiness benchmark, not a legal deadline.
☐ Yes ☐ No

Your result

Answer all eight questions. Check the critical questions first, then count your No answers.

All Yes

You have a starting point.

Your answers indicate defined responsibilities and available evidence. Check its content and currency before relying on it for a shipment. This result does not confirm EUDR compliance.

1-2 No, no critical gap

Some points remain open.

Resolve the highlighted points before your next relevant shipment. Your other answers do not replace a review of the evidence.

No to question 2, 3, 4, 5 or 8, or at least 3 No overall

Readiness Check recommended.

An important foundation is missing or unclear. A Readiness Check helps identify the gaps, responsibilities and next steps. This applies even if your other answers are Yes.

Clarify the open points.

In the one-week Readiness Check, we review your starting position and identify missing evidence, responsibilities and next steps.
